

Get the support you need between treatments.

It takes just a few minutes to let us know how you're feeling using the Explain Health app. Studies show patient monitoring can improve your care and reduce your costs.

Share your symptoms with us, so we can take care of you.

The Expain Health app is more timely, convenient, and consistent than a phone call. It will automatically remind you to share your symptoms with us according to your regimen.

Recent studies demonstrate that cancer patients who use an online app to report their symptoms during treatment experience better outcomes, higher quality of life, and are significantly less likely to visit the ER.

Ask your Northwest Medical Specialties provider for an invitation today.

Are you experiencing a headache?

Have you felt nausea?

Are you more tired than usual?
